

SDN 8 PANARUNG

ELEMENTARY SCHOOL

Global Vision Local Heart

VISION

To nurture joyful, globally-minded, and creative learners equipped with 21st-century skills to become independent and lifelong learners.

MISION

- Implement student - centered learning, enabling every learner to actively construct knowledge, find meaning in learning, and develop their full potential.
- Foster a joyful, safe, and inclusive learning culture, where students feel respected, comfortable, and free to express themselves in a friendly and supportive environment.
- Cultivate global character and universal human values, such as empathy, social responsibility, tolerance, and cross-cultural collaboration.
- Strengthen 21st-century skills, including creativity, critical thinking, communication, collaboration, digital literacy, innovation, and leadership.
- Encourage independent and lifelong learning, by providing opportunities for students to design, evaluate, and manage their own learning processes.
- Implement bilingual and globally-oriented education, preparing students to adapt and compete internationally while appreciating and preserving local culture.

EDUCATION FOR ALL

It is a holistic movement at Elementary School 8 Panarung which aims to ensure that everyone, without exception, has access to quality education. This means that everyone, regardless of age, gender, race, ethnicity, disability, or socioeconomic status, has the right to receive an education that meets their needs.

EQUITY OF ACCESS

Everyone has the right to receive equal and quality education, without discrimination. includes:

- Gender both men and women should have equal access to opportunities and resources.
- Children from economically diverse families should have equal access to quality education.
- Special needs children with special needs should have equal access to education that meets their needs.

SUPPORT AND WELLBEING

- The school at SDN 8 Panarung provides a safe and supportive learning environment, with a focus on students' mental health and wellbeing.
- This is relevant to the Palangka Raya City Government program through the Education Office, where there is a strong commitment to equality and inclusion.

ENTREPRENEURSHIP

Implementation:

- Entrepreneurship training
- Entrepreneurial bazaar
- Junior Business Center

JOYFUL TRANSITION

The Joyful Transition from Early Childhood to Primary School is a program implemented by SDN 8 Panarung to help young children adapt to the primary school environment in a fun and stress-free way. The key points include:

- Helping young children adapt to the elementary school environment in a fun and stress-free way.
- This program not only focuses on calistung abilities, but also on the holistic development of children.
- This program emphasizes the importance of collaboration between PAUD and SD in creating a smooth transition for children.
- This program provides support to teachers and parents in helping children adapt to elementary school.

STEM PROGRAM

Increasing student interest and talent in the STEM field. Preparing students to face the digital era and industry 4.0.

Implementation:
Science and mathematics Olympiad
Science experiment
Learning to code

BALANCE AND WELL-BEING

- Education at SDN 8 Panarung emphasizes the importance of balance between study, play and personal life.
- Students are encouraged to develop their interests and talents outside of academics.
- Students' mental and physical health is also a major concern.

COLLABORATION AND COOPERATION

- Education at SDN 8 Panarung focuses more on the learning process rather than test results.
- Students are encouraged to learn in a fun and interesting way.
- Testing is used as a tool to measure learning progress, not as an end goal.
